The proposed project will consist of two, Type 3, Tier 2 “Medium Mixed-Light” cultivation areas, an up to 10,080 square foot distribution facility, and an up to 20,000 square foot non-volatile manufacturing facility. Access roads will be installed providing vehicular access to the project area at the site, entering the site off of Ashby Road near the southeastern portion of the site.

Each proposed cultivation area will be comprised of six 5,040 square foot cultivation facilities on concrete slabs with metal and polycarbonate roofing and walls. One proposed cultivation area will be located on each parcel comprising the site. The proposed manufacturing facility will consist of an up to 20,000 square foot metal building on a concrete slab, and will be primarily used for non-volatile cannabis manufacturing activities (extraction, infusion, testing, packaging, and labeling).
